

# "OUR PLACE" NEEDS "OUR HELP"

We recently wrote an article about Our Place in The Vues. The response we received was overwhelming. Among the responses we received many letters from graduates of Our Place asking to help keep Our Place open because of it's importance to them. Here is a selection of their letters.

In response to your article I read, I used to go to Our Place and they helped me tremendously. I am now married to a wonderful girl and have three beautiful kids. This was not always the case; I was in a good Yeshiva and an excellent learner. I am friendly and choice boys who had a less then positive influence on me. As things became more difficult in Yeshiva I eventually left. I remember the night after I left Yeshiva; I came home smelling of smoke. I went to another Yeshiva which did not work out and eventually decided to leave completely. It was then that I was introduced to Our Place. The warm & friendly enviroment made me want to come back. I became a regular and after a number of months I went to yeshiva where things slowly began to improve. First I went to Neveh in Telz-Stone followed by Bais in Ezras Torah and eventually the Mir where my wife and I spent our first year of marriage. As an alumni I can first hand attest to their work. I have a deep respect for Our Place and the help they give our community.

I read your article in The Vues.

I am a member of Our Place. Our Place is a great place with great staff that will do anything to keep the kids happy. They give us food and they give us a place to hang out. We need as much loving as your family. Our Place keeps us off the streets and has helped me personally a lot. Help keep Our Place open.  
Thank you Our Place

I know Our Place may be closing down and you can help keep them open by writing in your paper.

It's important to keep Our Place open. The fact that this place is my only home. They feed me and keep me out of trouble and when I really need they help me buy clothes because my parents can't. This is reason enough for Our Place to stay open. Please help them.
