To all those who are concerned about our struggling children, *HaShalom V'HaBrocho*.

I write this letter to encourage the wonderful work done with great *Mesirus Nefesh* & sensitivity at the "Our Place" drop-in centers for struggling teenagers in Brooklyn, NY. I have personally visited the boys' location and was deeply impressed by the caring, and attention lavished on these "our" struggling children.

The clinical director of "Our Place", Rabbi Shimon Russell L.C.S.W, is close to me & has discussed with me many *sheilos* concerning struggling children. I firmly believe that he & his colleagues, particularly R' Chaim Glancz the program Director, are doing outstanding work, reaching these children & helping guide them back to a fulfilling Torah life.

May all those who help support & encourage their holy work, merit the blessings of seeing true Yiddishe nachas from their own children.
