

Our Place has helped me
a lot by giving me a place to go if I
ever had any problems or trouble. I know
that if anything ever happened to me the Rabbis
will always be there to help me.

It's a scary thought to ~~think~~ think it might
close down. ~~It~~ It has helped people through
thick and thin and It will always be there
for anyone.

Our place is important to me because it gives me ✓
a Free, Kosher, Boy's only place to work out. It has
the best ~~ex~~ assortment of exercise machines and
Free-weights (Dumbbells) for me to use. I can always
~~rely~~ rely on our place to provide me with a
hot, fresh, Kosher dinner to eat when I'm not
at home. The teachers and staff are always
there to answer any questions I have be it
academic or life guidance related. It gives
me a place to go where the staff do not
judge me about how I dress or how I am
doing in school. Because their number 1 goal
is to ensure my well being as ~~well~~ as
all the other Tech members well being as
Yiddisha Kindertach.

Dear our Place |

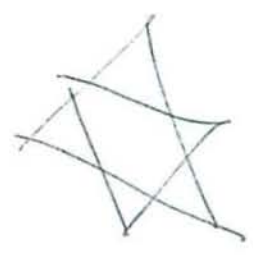

We love you so much

this is the Best place it

keeps me and everyone alive

we need you guy

Love Nathan

Why Our Place Has To Stay Open

When I was 15 I felt everybody hated me! Started taking pain killers and smoking alot of pot. This all started because I lived at home and my mother use to constantly physically abuse me and verbally abuse me. I was neglected of love period. Before I was 15 I use to always think of killing myself I was really really feeling I would never become happy. At the age of 15 I was sent to our place. When I came there I felt so amazing there were people that cared about me, I was actually treated like a human being. This came to me as a shock. At home I felt like a slave I was scrubbing cabinets and ovens everything constantly being over worked and over abused I was taken out of school at 13 I never had an education. Our place provided education for me.

If our place didnt exist I could've possibly killed myself. Our place provided me happiness which I never felt in my life. If our place closes down there could possibly be hundreds maybe thousands of kids who can possibly become dope heads, crack heads, suicidal. At the end of the day ~~if our place closes down~~ If our place gets shut down hundreds of kids lives will be shut down. Please keep our place open for the sake of hundreds and thousands of kids lives.

During my high school years I was considered a loner. I experienced depression on a daily basis and had nobody to talk to. One evening a friend of mine dragged me to our place and told me to just have a good time. At our place I was able to meet & interact with various people, which helped boost my social life & self esteem. The counselors were the first people to ever show me any empathy & care about my problems. They spoke to me, gave great advice, and helped me get back on track. I was suicidal & depressed during my teen years, but after meeting new people, I found a new life & started over. I don't know where I would be without our place, but I sure as hell wouldn't be in the good position I'm at now. Today I still hang out with people I met there, and it's been 5 years. Our place is like a secondary home to me and helped improve the quality of my life.

Our place is a very important program since
it keeps teenagers off the streets and out of trouble.

GO OUR PLACE

Our place is a great place with a great staff that will do anything
to keep the kids happy. They steal food for you w/ cigarettes when
we need and more as loving as your own family. Our place
keeps us off the streets and has helped me personally alot.

So Thanks our place!!

I learned a lot about myself and being a nice Jewish
guy. I learned how to play pool and table tennis and
made many friends while at ~~the~~^{our} place.

my name is Yair [REDACTED] I been coming
to our place for four years now. I learned
alot from here but there something else
I would like to talk about that more
important to me is my home you can
guess what ~~am talking about~~ I'm

referring to is our place. Our place
has been my home for four years

now. When some 1 tries to take your
home its not right. far get about

the fact that I'm not gonna have
my home any more. lets focus on
every 1 who comes here. out of
all the years I been coming here

I never saw less then 20 kids.

that means ~~to~~ because of no money that
our place doesn't have. @ over 20 kids are losing
a home. Now lets look at all the staff that
come here If there no our place they

I asked some I knew for my
whole life what our place mean to
them I got this.

Our place is my number 1 have all
the staff are my parents, ~~in fact it~~ ~~here~~
~~the~~ ~~the~~ table I eat on is my
family table the ppl who eat on it
are my siblings the tv. is the
family Chill Spot. In my ~~life~~ ^{life} I been
throw alot in and out of rehab I never
felt my comfortable more then in our place.
~~who~~ with out our place I'm lost in a
field with no reason or ~~purpose~~ purpose.
~~I wrote this for myself.~~

H

OUR
PLACE

Heart out Place

We love you so much

this is the Best place it

keeps me and everyone alive

we need you guy

Love Nathan

12/30/10

I have had the pleasure of being a volunteer at "our place in my" for the past 10 years. "our place" is a drop in center for teens who would be in trouble if they had no safe place to spend their evenings. I have witnessed, over time, how many of these lively teens have gone from a troubled or at least a difficult life, to become outstanding young adults who are an asset to society. most people would be surprised to see how far a little love can go. It is not an easy job for me but, it is a very rewarding one.

I pray that we can keep our doors open to service these young people.

~~KEEP~~

Keep guys off the streets

It's important to keep our place cause
the fact that this place is my only
home, feed me and keep me out of
trouble -

Its a place I can go to relax and stay out of trouble,
work out, enjoy myself for free

my name is
I am 29 year old I been comen
to our place for 15 teen year through
out all the time this place been here
I have seen the help they do for
every one giving help to those in
need this is a fun place to be in
the staff here is very good to all
the people here I like to say thank you
to all the man and woman who
help us here think you so much
